Ex-52 Report on Resources for Financial Management Activities

Summary of Changes

Drops the requirement to report on material weaknesses and nonconformances.

52.1 What are the general reporting requirements?

Agencies are required to provide two reports on financial management:

- Financial management budget justification materials (including agency financial management plans); and
- Report on resources for financial management activities (exhibit 52).

52.2 What other reporting requirements does this fulfill?

For the 24 agencies covered by the Chief Financial Officers Act of 1990 (CFO), the materials required in this section fulfill the following requirements:

- CFO Act: Requires each agency CFO to prepare a financial management plan to implement the Government-wide financial management five-year plan.
- The Federal Financial Management Improvement Act of 1996 (FFMIA): Requires each agency head to determine **substantial** compliance with the Act. When the agency head determines that the agency's financial management systems do not comply with FFMIA, the Act requires the agency to submit a remediation plan to bring the agency's financial management systems into substantial compliance with FFMIA and with the agency's budget justifications materials. Guidance in this section outlines the information that must be provided on remediation activities to fulfill FFMIA requirements.
- OMB Circular A-127, Financial Management Systems: Requires each agency to develop, prepare, and maintain financial management systems plans.

52.3 Who must report financial management information?

CFO Act agencies. All CFO Act agencies must submit the materials prescribed by section 52.4 with their initial budget submission. The CFO Act assigns to the CFO responsibility for preparing and revising the agency's financial management plan and developing the agency's financial management budget.

Non-CFO Act agencies. Non-CFO Act agencies must include in their initial budget submission a brief summary of their financial management plans to ensure sound financial management practices.

52.4 What materials are required in the budget justification?

The budget justification should describe financial management operations and improvement initiatives, including desired results and performance measures. It should include plans for financial management throughout the agency and financial management performance measures. The justification should align with the agency's mission and programs and address the President's Management Agenda.

The financial management plan should include:

- *Goals and strategies.* Briefly discuss how the agency will achieve the goals and strategies for implementing government-wide financial management improvements that are associated with the President's Management Agenda. Include information on the status of financial management activities to provide a context for the agency's plans and resources request.
- *Financial performance.* Briefly discuss impediments to improving the agency's financial performance, especially those identified in your agency's most recent Executive Branch Management Scorecard. Describe plans to overcome the impediments, such as efforts to reduce erroneous payments, eliminate material weaknesses identified by previous audits, and material weaknesses and nonconformances identified under the FMFIA process, obtain and sustain clean audit opinions on financial statements, ensure timely and useful financial reporting including financial performance measurement, and meet accelerated year-end reporting.
- *Financial management systems structure.* Present an overview of current and targeted financial management systems structure and plans for achieving targeted systems structure, covering core financial management systems and financial and mixed systems critical to effective agency-wide financial management, financial reporting, or financial control (see section [53.3](#)). Include an inventory and brief description of baseline financial and mixed systems, including an assessment of major problems. (Guidance and instructions for the systems inventory update will be available on the Internet; a separate memorandum will be distributed to Deputy CFOs advising them of the location and posting date.) Include a synopsis of critical projects currently underway or planned to accomplish the target structure. Identify FFMIA remediation activities planned and underway and describe (either in this synopsis or by referencing other documents or budget exhibits) the resources, remedies, interim target dates, and officials responsible for bringing systems into substantial compliance with FFMIA.
- *Grants management.* Describe grants management policies and practices, including:
 - ▶ How the agency ensures policy consistency across grant programs.
 - ▶ How program-specific requirements (e.g., application forms, financial reports, and award conditions) are reviewed to ensure consistent treatment of grantees.

- ▶ Agency efforts to coordinate policies and practices with other agencies.
- ▶ Recommendations for changes in law to improve the effectiveness, performance, coordination, and accountability of grant programs, including program-specific statutes.
- ▶ Efforts to ensure quality of audits performed by non-Federal auditors in accordance with the Single Audit Act Amendments of 1996 and OMB Circular A–133. Information should be included for the prior, current, and budget years, addressing the number of audit quality control reviews, FTE for audit quality efforts, results of the audit quality efforts, actions taken or planned to improve quality of non-Federal audits, and other relevant information to assess your agency's reliance on audits under Circular A–133 in grant management.
- ▶ Participation and efforts in the Grants.gov (formerly known as the E-Grants) initiative, including systems efforts to interface with the government-wide Grants.gov system for simplified grant application and management processes. Include a discussion of how your agency participates in implementing Public Law 106-107, the Federal Financial Assistance Management Improvement Act of 1999 (grant-making agencies only).

52.5 What is the report on resources for financial management activities (exhibit 52)?

Each CFO Act agency is asked to report total budgetary resources and full-time equivalent (FTE) employment data for CY and BY and obligations for PY for each of the following categories of financial management activities:

- Accounting and reporting;
- Audits of financial statements; and
- Financial management systems.

In addition, in-house and contract data are required on resources for accounting and reporting and the audits of financial statements.

52.6 What are the line descriptions and coding for exhibit 52?

Report obligations (PY) and budgetary resources (CY and BY) in millions of dollars and FTE employment data for the entries described below. Use the fourth digit of the line number to identify data as obligations or budgetary resources (xxx2) or as FTE data (xxx1). Resource information should represent the agency's best estimate of salaries, contracts, or other major expenses to be reported. Allocation of overhead expenses is not required.

REPORT ON RESOURCES FOR FINANCIAL MANAGEMENT ACTIVITIES

Entry	Description

9999 Telephone number	Include telephone number of agency contact.

52.7 How do I submit exhibit 52 and when is it due?

[Exhibit 52](#) is due with the initial budget submission. It should be approved by the agency CFO before submission to OMB. E-mail the exhibit using the formatted spreadsheet provided at <http://www.cio.gov>. Send the completed exhibit 52 spreadsheet to exhibit52@omb.eop.gov. Before sending the completed spreadsheet, verify that the subject line has the three-digit OMB agency code (see [Appendix C](#)) and the full agency name. Update the data on exhibit 52 to reflect final budget decisions.
